

HEALINT4ALL

Quality assured clinical learning, including evidence shared across boundaries, will support a globally prepared Medical and PAMS international workforce able to transfer skills and practice and offer best interventions to enhance patient treatment. HEALINT4ALL provides Medical Education and Professionals Allied to Medicine an audit system to facilitate quality assurance of EU clinical learning environments. Students will be confident that they can obtain an increased number and variety of safe optimised learning placements through extensive partnerships developed, thus fostering inclusivity. This project contributes to global citizenship as well as health and well-being supported by professionals in promoting high standards and best practice.

HEALINT4ALL

Assuring Quality Health Care Traineeships
for Medical and Professionals Allied
to Medicine through embedding and
exploiting tools across Higher Education

www.healint.eu

OUR MISSION

"Our mission is to facilitate the international mobility of trainees, and consequently, of professionals in the healthcare sector."

OUR GOALS

To fulfill its Mission and achieve its vision, HEALINT4ALL is deploying a strategy composed of four intellectual outputs with the following Objectives:

1

To map and innovatively adapt newly established Audit Protocol and Support tools to suit the Higher Education needs for wider application to medicine and professionals allied to medicine.

2

To develop a digital interactive interactive audit tool, which can be used in situ via ipads etc, supported by access to a central database, which can be easily managed by a provider and suit multi-professions.

3

To develop a virtual interactive learning and teaching resource for auditor preparation and update, which can be cascaded and incorporated into self directed and blended learning.

FOR MORE INFORMATION:
www.healint.eu

4

To add further languages of the European Union and incorporate partners integration of the tools in all languages to facilitate wide use across multi-professions.

5

To execute an ongoing programme of intensive dissemination and impact evaluation in order to establish the HEALINT Tools and subsequent IWA as the gold standard audit tool for the assessment of clinical placements supporting international mobility by all healthcare.

Our vision is to increase the supply and quality of international placements offered by health care organizations throughout Europe, as well as to simplify the processes involved in organizing these for students, educational institutions and healthcare organizations.

OUR VISION
